

Battersea Jacs Swimming Club

Health check protocol

All swimmers, coaches and volunteers to complete the following documents, and submit to the club, prior to participating in any training sessions:

Return to training declaration

Covid-19 health survey

The club will retain these documents for at least six months after all Covid-19 related restrictions have been removed.

Swimmers, coaches and volunteers should assess their health status prior to attending any session and thus avoid attending sessions where they may pose a risk to others. The "Returning to training declaration" contains further information on this aspect of session attendance.

This protocol will be reviewed on a regular basis.
